AREA OF RESEARCH

- ◆ Principal Investigator for a large number of international trials -
 - New PPI in peptic ulcer disease
 - Short course Interferon in Hepatitis C
 - New drugs in Idiopathic ulcerative colitis.
 - Long term results of Entecavir in Hepatitis B
 - Epidemiology of Hepatitis B in children
- ◆ Evaluated different aspects of endoscopic therapy of varices :
 - Comparison of various sclerosants.
 - Comparison in different etiology, i.e., cirrhosis, non-cirrhotic portal fibrosis, extrahepatic portal venous obstruction.
 - Evaluation of predisposing factors, natural history and treatment of sclerotherapy induced strictures.
 - Safety and efficacy of sclerotherapy during pregnancy.
 - Effect of sclerotherapy on development of varices at ectopic sites.
 - Comparison of sclerotherapy with a combination of ligation and sclerotherapy.
- ◆ Studied the occurrence of rectosigmoid varices and “rectopathy” in patients with portal hypertension.
- ◆ Instrumental in evolving strategy for the management of radiation induced proctitis.
- ◆ Studied the changing pattern of peptic ulcer and colonic diverticulosis in India and spectrum of lower gastrointestinal haemorrhage.

- ◆ Involved in evaluation of various regimens for intracavitary radiation therapy for carcinoma of esophagus.
- ◆ Evaluated various aspects of idiopathic ulcerative colitis as seen in India :
 - The role of infections agents in causing exacerbation.
 - The occurrence of colorectal carcinoma.
 - The prevalence of extraintestinal complications.
 - Chloroquin in treatment of exacerbations.
 - Prevalence of lactose intolerance.
- ◆ Role of fungus in pathogenesis of gastrointestinal diseases such as esophageal cancer, peptic ulcer.
- ◆ Treatment of Helicobacter pylori,

GUIDE FOR THESIS

Guide for six M.D. (Medicine) students for their M. D. Thesis.
